

# Colorado's Historic Preservation Tax Credit for Commercial Properties

## WHAT IS A TAX CREDIT?

A tax credit is a dollar-for-dollar reduction in the amount of tax owed to the government. Tax credit projects create jobs and provide financial incentives to revitalize historic buildings. Federal and state tax laws offer tax credits for historic preservation projects that follow the Secretary of the Interior's Standards for Rehabilitation of Historic Properties. The federal government offers a tax credit between 10 and 20 percent, which can be paired with the state tax credit.

In 2015, Colorado will offer tax credits for historic buildings. Preservation tax credits are managed jointly by the Office of Economic Development and International Trade (OEDIT) and History Colorado.

## HOW CAN THE TAX CREDITS HELP ME?

- » Colorado's state historic preservation tax credits are transferable: you can sell them upon completion of your project. Selling credits can bring in additional funds for your project, for a cash match for a grant, or for a loan.
- » Using preservation tax credits gives you access to additional federal and state funding pools, grant programs, and further tax credits.
- » Historic preservation tax credits lower your tax bill, which can increase your tax refund.
